Where's your lunch? Someone ate it, that's where.
Follow trail of mayo to likely suspect.
Decide whether you can go nuts based on suspect's relative seniority to you.
NO, you're screwed
Administer dirty look. Make next sandwitch with dog food and thumbtacks. Wait.
YES, vengeance is thine!
Tell everyone you think suspect ate your lunch.
Suspect has also been seen taking personal calls
Post petition banning suspect from breakroom, bathroom, building.
WHAT TO DO WHEN SOMEONE EATS YOUR LUNCH OUT OF THE STAFF FRIDGE
I'm not kidding. The fallout will be severe. That was my lucky sandwitch. When I find you, here's what I'm going make you do:
1. Submit to ass whoopin'
2. Buy me another sammitch
3. Make that sammitch lucky by adding sprinkles and jalepenos
4. Eat whatever's in the ancient tupperware that's been hiding behind the bag of ice.
